

My dear 2CV friend,

I'm writing on behalf of Citroën club of Slovenia and as a part of our candidacy for the 25th international meeting of 2cv friends in 2023.

Slovenian Citroën enthusiasts already have a long tradition of participating in international meetings of 2cv friends, as well as visiting also a lot of other Citroën events all over Europe. We already hosted one international meeting of 2cv friends, which happened in 1995 in Maribor and we know people were quite happy visiting Slovenia and the meeting. Last time we wanted to organize the meeting, we lost the vote but we believe we have learned a lot from that loss.

Since our country is quite small, our Citroën club is very connected within itself and that helps us in many things. We believe it's also a key feature in an event like that. With that in mind, we would love to organize an international meeting again, this time in 2023.

We really have a lot to offer, starting with beautiful country, nice tourist attractions, cheap beer, seaside, and mountains nearby and of course kind and helpful members of the Slovenian club that will be at your service at all times.

The wait for this year's international 2cv meeting in Samobor, Croatia is almost over and our candidacy is also reaching it's final stage.

We would like to invite you to the events and activities that we have prepared as a part of our candidacy. We are hosting 2 camps in Slovenia, both will happen just the weekend before the meeting starts - one in Bodislavci for people traveling from the east, and one in Višnja Gora for people traveling from the west. It's perfect if you want to come very close to the Croatian meeting just before it starts.

## 1) Basecamp Bodislavci

25. – 28. 7. 2019, Bodislavci, Slovenia

Coordinates: 46°30'34.1"N 16°03'10.0"E

Facebook event: <https://www.facebook.com/events/879814372378594/>

This basecamp is perfect for people coming to Croatia from the eastern side of Europe. Here's a possibility of free camping (on the site we traditionally organize our meeting Hidroid), nice company, a dry place in the case of rain, some shade in the more likely case of the sun, hot shower and cold beer. And rock'n'roll, bien sûr.

## 2) Basecamp Golden Snail Višnja Gora

27. – 30. 7. 2019, Višnja Gora, Slovenia

Coordinates: 45°57'08.9"N 14°45'04.3"E

Facebook event: <https://www.facebook.com/events/831797940537293/>

This basecamp is made for travelers that will arrive from the western part of Europe. The camping in the basecamp Golden snail will be available for free – the visitors will only have to pay tourist tax - the price of 2 € per night. Basecamp is a part of city swimming pool Zlati polž (Golden snail in translation) where all the infrastructure is available – swimming pool (of course), warm water, covered area (in case of rain or very hot sun), a bar with drinks, cheap food and live music on weekend evenings.

### 3) Red Tent at the meeting in Samobor

What we also have for you, is, of course, the presentation of our candidacy at the meeting in Croatia, in the recognizable Red Tent. You'll be able to taste delicious food from Slovenian cuisine and refresh yourself with cold Slovenian drinks. Our members will also help you with any questions about Slovenia. You'll be able to reach us every day between 15.00 and 19.00.

**I am kindly asking you to share this e-mail and all this information with the 2cv and Citroën community in your city or in your country. If you have any questions, please don't hesitate to write to this e-mail.**

You can also contact us on this Facebook page:

<https://www.facebook.com/2cvslovenia2023>

It would really be an honour to host you all again. So we hope that at the meeting in Croatia you will give us an opportunity to make your vacation in 2023 memorable.

**So vote for Slovenia!**

Best regards,

Luka Stare

head of committee for the candidacy – 25th international meeting of 2cv friends, Slovenia 2023
